The wound made was only a slight scalp one, but sufficient to have him remember it for some time.

Several Mexicans who had been imbibing too freely of the juice of the cactus plant, picked on a number of American kids on Saturday night in the vicinity of the slag dump. The boys held their own for some time, but the Mexicans received reinforcements and the boys started to retreat when, one of the Mexicans threw a broken bottle at the

boys which struck Elmer Penney on the right side of the face, cutting an ugly gash from just below his eye to his lip, laying the cheek bare to the bone.

The entertainment given by the Good Templars last evening for the benefit of Miss Yates was quite well attended and a very interesting program was rendered. A number of the members who were to have taken part were unable to do so on account of having the measles. Several hundred tickets were sold and quite a nice sum of money was raised.

Mr. John Peterson, of Pottsville, La., was very agreeably surprised not long ago. For eighteen months he had been troubled with dysentery and had tried three of the best doctors in New Orleans, besides half a dozen or more patent medicines, but received very little relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy, having been recommended to him, he gave it a trial and to his great surprise, three doses of that remedy effected a permanent cure. Mr. Wm. McNamara, a well known merchant of the same place, is well acquainted with Mr. Peterson and attests to the truth of this statement. This remedy is for sale by J. S. Williams & Co., druggists.

Horseback riding is becoming the rage in Bisbee. Nearly every morning some of our feminine equestriennes can be seen starting out for a trip through the valleys below here.

A. L. Worden, well known in our city, and who for some time was connected with the company store, was brought in yesterday from Sonora suffering from a severe attack of appendicitis.

"Hail for 'Nited States of 'Merica!" shouted an old booze who was leaning up against a post on Main street last night. "My friend," said a passerby. "Getting drunk is a mighty poor way of showing your patriotism." "Tis, hey? Well, I (sic) guess you hain't heard 'bout that new tax on beer."

It would make most of us feel funny to be piloted over a "mine field" by a little patrol boat, with the knowledge that only a few yards, the act of pressing a button lay between us and eternity. Travel on the long Island Sound steamers has already decreased very markedly, owing to the nervousness of travelers.

Simon Figarro, a Mexican who was arrested here a few days since on a charge of horse-stealing, was bound over to appear before the grand jury and was taken to Tombstone yesterday by Deputy Sheriff Vaughn. The Mexican stole three horses in Pearce and was trailed here where two of the horses were found, which he had sold to parties living here.

Peter Weidner, manager of the South Bisbee Townsite and Improvement company, leaves soon for Los Angeles where he will remain for a short while. The company is pushing the work rapidly on their claims. The new double compartment shaft is now down to a depth of over seventy feet. President Martin is still in the east in the interest of the company. He is expected back here soon.

"I would not be without Chamberlain's Cough Remedy for its weight in gold," writes D. J. Jones, of Holland, Va. "My wife was troubled with a cough for nearly two years. I tried various remedies, besides numerous prescriptions from physicians, all of which did no good. I was at last persuaded to try a bottle of Chamberlain's Cough Remedy, which promptly relieved the cough. The second bottle effected a complete cure. The 25 and 50 cent bottles for sale by J. S. Williams & Co., druggists.

Shooting Scrape.

The Tombstone Prospector contains an account of a shooting affair which occurred at the Tedrow ranch near Soldiers Holes in the Sulphur Spring valley. Pierre Lagrange, a well known cowboy, was shot in the abdomen by Porter McDonald. It seems McDonald and Lagrange had some words a few days before regarding a steer, when Porter walked away rather than have a quarrel. The next day McDonald asked Lagrange for some money that he owed him when Lagrange slid off his horse and fired at McDonald, who returned the fire. Pierre fell and McDonald, putting his gun up, started to walk toward him to render any assistance that might be necessary, when Lagrange fired another shot, narrowly missing his head. Porter then disarmed his foe and went to Tombstone to give himself up. Lagrange was taken to the county hospital where he is in a precarious condition.

TOPE OF THE FOREIGN PRESS.

With exception of the English papers the European press is distinctly hostile to the United States. Some of the attacks are exceedingly bitter, and if they indicate popular sentiment, Continental Europe evidently regards the cause of Spain as her own to a certain extent.

This sentiment, especially at this time, does not do the great powers any particular credit. It is true that Spain has proceeded in a line of correct diplomacy and has made some formal, though ineffectual concessions. Under ordinary circumstances these concessions would have been treated with more consideration by our government. Their speciousness and emptiness were too apparent, however, to secure the additional time for which they were chiefly made. Through Spain's one-sided presentation of them to the courts of Europe, they have gained for her more consideration than she deserves, but not enough to cause alarm.

It is rather significant and suggestive that Germany and France, in particular, place no confidence in the administration's avowal that our movement upon Spain is not inspired by a desire to acquire territory. Yet our declaration is clear and emphatic on that point. The skepticism of Europe is doubtless based upon her own proclivities rather than upon American tendencies. We have not pursued a policy of acquisition. Europe has pursued such a policy. Nearly every one of the foreign powers has a number of colonial possessions. Any one of them, with less provocation, would long since have made Cuba a dependency.

Europe's insensibility to the atrocities perpetrated on the Cubans by the heartless Spaniards is entirely compatible with her criticisms of our intervention. It is just a little difficult to secure European credit for national altruism. But we know what we are about and why we are about it. We must show them.

WAR may make the issuing of more bonds necessary, but it will largely offset this by strengthening the bonds which unite the different parts of the country in a harmonious whole.

"The Americans don't know yet what we Spaniards are," says Senor Polo. Possibly not, but they know what you are going to be in a short time if you persist in this attempt at suicide.

Too much credence should not be given to dispatches from Cape Verde to the effect that the Spanish fleet is resting quietly there. These dispatches are edited by a Spanish press censor. The fleet may be heading Havana, or possibly making for New York.
